**Figure 4.3.:** Coordinate system.

**Table 4.2.:** Overview on coordinates.

Coordinate	German term	Symbol	origin of coordinate	corresponding axis
travel angle	Schwenkwinkel	$\alpha$	starting position	$x$
elevation angle	Steigwinkel	$\beta$	horizontal position of the arm	$y$
pitch angle	Nickwinkel	$\gamma$	horizontal position of the helicopter	$z$

**Table 4.3.:** Overview on actuators.

Actuator	German term	Symbol for applied voltage
front motor	Frontmotor	$U_F$
back motor	Heckmotor	$U_B$
